

 **Space ERP**

Manage Every Space. Manage Every Project.

All-in-one business management software built specifically for interior design firms — from the first client inquiry to the final signed-off payment.

-  **Lead-to-Client CRM**
-  **Project Management**
-  **Inventory Management**
-  **Vendor Management**
-  **Contractor Management**
-  **Advanced Reports**
-  **GPS Site Attendance**
-  **Double-Entry Accounts**
-  **Client Self-Service Portal**

Still juggling WhatsApp groups, Excel trackers, and paper BOQs to run your projects? **Space ERP** brings your CRM, estimates, procurement, site attendance and full accounts into one secure system — configured around how your firm already works, and installed on your own server so your data stays entirely yours.

FEATURES

Everything Your Interior Design Business Needs

Every module below is already built, tested, and running in production — ready to be configured and licensed to your firm.

Lead & Client CRM

Capture inquiries, track a 5-stage pipeline, and convert a won lead straight into a client and project.

Project Tracking

Timelines, milestones and files with clear On Track / At Risk / Delayed status on every project.

Estimates & Quotations

Line-item BOQ builder with auto-calculated totals — send a branded PDF quotation in minutes.

GPS Site Attendance

Staff check in/out from any phone browser with GPS + photo verification — no app install needed.

Procurement & Inventory

Purchase orders, vendor records and a live stock ledger with low-stock alerts.

Contractors & Work Orders

Manage subcontractors and track their payments with branded PDF work orders.

Full Double-Entry Accounting

Chart of accounts, journal entries, ledgers, trial balance, P&L and balance sheet.

Receivables & Payables

Client and vendor aging reports, with payments recorded straight to a PDF receipt.

Client Self-Service Portal

Clients log in to see their own project status, quotations and payments — no status calls needed.

Role-Based Access

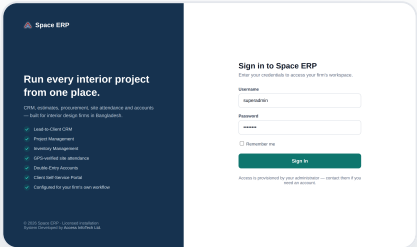

Admin, Management, Project Manager, Designer, Site Supervisor, Accountant & Client each see only their view.

Reports & Dashboards

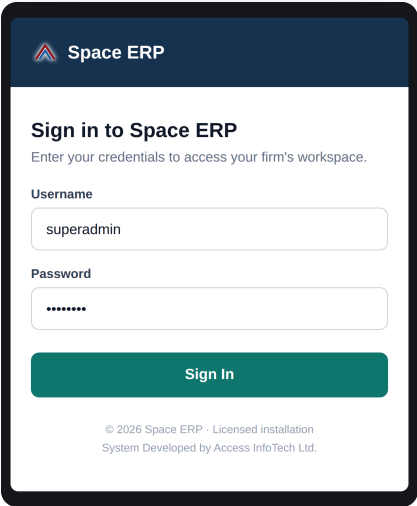

Real-time KPIs across every project, with CSV and PDF export on every report.

Mobile-Ready, Installable

Fully responsive on phone and tablet — installs like an app straight from the browser.

Your own branded sign-in screen

Your Own Secure Install

Single-tenant deployment, licensed to your business alone — your project and client data is never shared with, or stored alongside, anyone else's.

One Continuous Flow — From First Contact to Final Payment

Every module feeds the next, so nothing has to be re-typed or re-checked twice.

Capture the Lead

Log an inquiry and move it through your pipeline.

→

Quote the BOQ

Build a line-item quotation, send it as a branded PDF.

→

Execute & Track

Run the project with GPS attendance, stock and work orders.

→

Get Paid & Reconcile

Record payments and see it all reflected in your accounts.

BENEFITS

Why Interior Design Firms Choose Space ERP

Built from the ground up around how interior design projects actually run in Bangladesh.

- 1 One system instead of five**
Replace scattered WhatsApp groups, Excel trackers and paper BOQs with a single system your whole team already trusts.
- 2 Attendance you can actually trust**
GPS- and photo-verified site check-ins put an end to attendance disputes on every site, permanently.
- 3 Quotations in minutes, not days**
A line-item BOQ builder with auto-calculated totals means fewer pricing errors and faster client sign-off.
- 4 Know your real profit, not just revenue**
Project-wise profitability and full double-entry accounts show you exactly where every project stands financially.
- 5 Impress clients from day one**
A self-service client portal — showing live project status, quotations and payments — builds trust without extra phone calls.
- 6 Your business, your rules**
A single-tenant installation licensed to your firm alone, configured around your own workflow — not a rigid one-size-fits-all template.

Built for: interior design firms of every size — from boutique design studios to multi-project contracting companies.

GETTING STARTED IS SIMPLE

- 1 Free Consultation**
We walk through your current process and map it to Space ERP's modules.
- 2 Configured & Installed**
Your own branded, single-tenant installation — set up on your server, your data.
- 3 Go Live & Get Support**
Your team is onboarded and live, with ongoing support from Access InfoTech Ltd.
